

Balsam Centre Health Walks April 2018 - September 2018

PLEASE NOTE: you can just turn up on the day for the short walks but it is VITAL for you to book on to the long walks and the Wincanton Buggy Walks - even if it's on the morning of the walk. It enables us to contact you if the walk has to be cancelled, and if we have no bookings walk leaders will postpone their walks.

Call 01963 31842 to book.

What is a Health Walk?

Health Walks promote walking as an achievable, non-competitive and enjoyable way to improve health and increase physical activity. There are a variety of walks to accommodate absolute beginners to the more experienced. They are a great way to increase your fitness levels, enjoy local natural spaces and meet new people. The walks are all free of charge, but donations are welcome. Walks are led by Volunteers who are trained Health Walk Leaders.

Which walk is right for me?

There are different types of Health Walks designed to accommodate a range of walking experiences and fitness levels, these are described in more detail below:

Level 1 Health Walks from Wincanton Medical Centre

This is a 30 minute walk for people who are new to walking, or can't walk far or for long. The walks are on pavements and are planned to avoid the hills so they are all on the level. These walks run every Tuesday at 11.30am, starting and ending at the Wincanton Medical Centre on Dyke's Way. ***These walks are highlighted in green italics on the list of walks with a blue foot.***

Level 2 Health Walks from Wincanton Chiropractic Clinic

These 30 minutes walks will be at a mid-pace. Walks will mainly be on pavements but will have some small inclines. These walks run every Tuesday at 11.00am, starting and ending at the Wincanton Chiropractic Clinic, 75 High Street, ending with a cup of tea or coffee in the clinic. Further enquiries for this walk telephone (01963) 32986. ***These walks are highlighted in green italics on the list of walks with a blue foot.***

Level 3 Health Walks from the Balsam Centre

These walks are approximately 50 to 60 minutes long, and average 2.5 to 3 miles, following paths and tracks around Wincanton and the surrounding fields. They are aimed at people who might be less able to take the 2 hour long walks or who have progressed from the Short 30 walks. The walks do include some inclines - because this is Wincanton! These walks run every Tuesday 10am, starting and ending at the Balsam Centre, usually finishing with a cup of tea or coffee in the Centre. ***These walks are highlighted in green italics on the list of walks with two green feet.***

Wincanton Buggy Walks

Buggy Walks will be starting on 10th April and will run every Tuesday afternoon, starting at 1:30pm from the Balsam Centre. (Booking essential as if no-one has booked the walk will be cancelled) These walks will be mostly on pavements and last approximately 45 to 60 minutes. Babies and children will have to be in pushchairs or in a baby carrier. **These walks are highlighted in purple with a blue foot.**

Stourhead Buggy & Toddler Walks

Buggy Walks run every other Thursday, starting at 10:30am from the Visitors Centre at Stourhead. This is a lovely walk around the beautiful gardens at Stourhead, with or without pushchairs. Entry is free for every adult with a child - extra adults will have to pay the garden entry fee or be National Trust members, (please note that there is a car park fee). All buggy walkers will need to register and collect a pass at The Balsam Centre before the first walk, passes will only be issued to people living within a 10 mile radius of The Balsam Centre, so please take a proof of address with you to register. The walks last about 45 minutes, and you can end it in the cafe at Stourhead if you wish. **These walks are highlighted in purple with a blue foot.**

Balsam Walking Group

These are "progression walks" and are aimed at those who have a reasonable level of fitness and are comfortable with walking. The walks start at 10am but the start location varies from week to week. To help you decide which walks are suitable for you a description of each walk is provided with the walk length and number of stiles, etc.. There is no charge but you are welcome to make a donation at the end of the walk. **These walks are highlighted in bold blue print on the list of walks.**

How do I join a Walk?

If you would like to participate in any of the Health Walks please drop into the Centre and complete a registration form before attending your first walk. We are not able to accept walkers without registration.

Walks are free of charge and once you have registered you can join any walk in the programme. Please book a place on the walks you wish to attend. If no one has pre-booked on to the walk, it will be cancelled; leaders will not travel to the walk to inform walkers so if you don't want to waste your journey, let us know you want to attend. Likewise, if a walk has to be cancelled due to flooding etc, we will only contact those who have pre-booked.

We advise that you only attend walks that are at a level you feel comfortable with. If you have not participated in much exercise recently or are worried about your health, please make sure you check with your doctor before increasing your physical activity levels.

Please wear practical clothing and comfortable footwear which provides support and is waterproof. For longer walks and in warm weather please bring drinking water.

An adult must supervise any children under the age of 16. If you wish to bring a child please phone and book your place as some walks may not be suitable for very young children.

Dogs are not allowed on the walks - apart from those belonging to walk leaders.

If you provide us with your email, we will send out information about the conditions on the walk a few days beforehand - and we won't email you about anything else other than the walks (nor will we pass your email on to anyone else).

Are you interested in becoming a Health Walk leader?

We need more walk leaders and back stops to ensure we can put on these walks. If you enjoy our walks, perhaps you might like to consider becoming a walk leader. The Walking for Health scheme offer free training, and you can choose which walks and how many walks you would like to assist with. Walk Notes

Using the place references

Short Health Walks start from the Balsam Centre or the Medical Centre. Long walks have a grid reference and a postcode. The postcode will get you to the meeting point if you have a satnav but be aware that the postcode is often just the nearest and doesn't pinpoint the place exactly. The grid references refer to the Ordnance Survey maps and give the map number as well as the grid reference. If you want to look up the grid reference online beforehand, go to <http://www.gridreferencefinder.com> and put in the grid letters and numbers. You can then see a map with the reference pinpointed.

PLEASE READ THE FOLLOWING INFORMATION ON LYME DISEASE.

Carried by ticks, Lyme Disease has become more prevalent in the UK, and we may be walking in areas where these ticks are found. There can be nasty consequences if you are bitten and don't realise it, so read the following information so you know what to look for and what to do if you are bitten.

Lyme disease is a bacterial infection spread to humans by infected ticks. They feed on the blood of birds and mammals, including humans. Lyme disease can often be treated effectively if it's detected early on. But if it's not treated or treatment is delayed, there's a risk you could develop severe and long-lasting symptoms.

The classic bite looks like a bulls-eye rash. If you suspect you have been bitten, visit your doctor. Diagnosing Lyme disease is often difficult as many of the symptoms are similar to other conditions.

A spreading rash some days after a known tick bite should be treated with appropriate antibiotics without waiting for the results of a blood test.

However, around one in three people with Lyme disease won't develop this rash. Flu-like symptoms, extreme tiredness and headaches may occur and if left untreated the disease may spread throughout the body to the nervous system, joints, skin, heart and eyes, causing a range of symptoms eg. Facial palsy and nerve root pain.

Prevention

The best way to prevent the condition is to take sensible precautions.

- **wear appropriate clothing** (a long-sleeved shirt and trousers tucked into your socks)
- **wear light-coloured fabrics** that may help you spot a tick on your clothes
- **use insect repellent** on exposed skin
- **inspect your skin for ticks**, particularly at the end of the day, including your head, neck and skin folds (armpits, groin, and waistband) – remove any ticks you find promptly
- **make sure ticks are not brought home** on your clothes

If you find a tick on your skin, remove it by gently gripping it as close to the skin as possible, preferably using fine-toothed tweezers. Pull steadily away from the skin without twisting or crushing the tick. Wash your skin with water and soap afterwards, and apply an antiseptic cream to the skin around the bite. Don't use a lit cigarette end, a match head or substances such as alcohol or petroleum jelly to force the tick out. Some veterinary surgeries and pet shops sell inexpensive tick removal devices.

Awareness is key - do not stop enjoying outdoor activities!

A BIG thanks to.....

.... all the volunteer walk leaders; Ali, Annette, Dave, Erica, June, Kelly, Lu, Lynda, Lynn, Mark, Mike, Owain, Paul, Peter, Poppy, Russel, Simon, Tony, Trevor and Wendy, and Robert our walking buddy. We would also like to welcome Izzy, Michelle, Pamela and Sian to our team.

They have all planned the many varied walks in our programme and continue to come up with new and interesting walks each year.

This list of walks can also be found on our website www.balsamcentre.org.uk/adult-activities.html#walking and further updates are posted on our Facebook page - <https://www.facebook.com/balsamcentre>
